

DURRIE VISION

Daniel Durrie, MD Receives Barraquer Award

October 30, 2002

The International Society of Refractive Surgery (ISRS) presented Daniel Durrie, MD, with the 2002 Barraquer Award. The award is presented each year in recognition of an individual's contributions and scientific dedication to the advancement of refractive surgery.

Customized LASIK surgery receives FDA approval

October 21, 2002

The FDA has approved Alcon's customized, wavefront-guided laser eye surgery application. This is the first approval for customized LASIK surgery using the latest advancement in pre-operative wavefront measurement and an excimer laser for the treatment.
